ENGLISH AND CHINESE DICTIONARY PUNTI AND MANDARIN PRONUNCIATION. An Anglo-Chinese Dictionary, by the Rev. W. LOBSOHEID, published at the Daily Press Office, Hongkong.

FOR scope and practical service this Work stands unrivalled. All the new words which the Chinese have of late years been comnelled to coin to express the numerous objects n machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extenso. Each and every word is fully illustrated and explained, forming exercises for students of a most instructive nature. Local Bills Discounted.

Both the Court and Punti pronunciations are Credits—granted on approved Securities, and given, the accents being carefully marked on every description of Banking and Exchange the heat principle hitherto attained. The typo-business transacted. graphy displays the success of an attempt to | Drafts-granted on London, and the chief make the Chinese and English type correspond commercial places in Europe, India, Australia, in the size of body, thereby effecting a vast America, China and Japan.

conomy of space, achieving a clearness not VICTOR KRESSER, Chief Manager. conomy of space, achieving a clearness not previously attained, and dispensing with those | Offices of the Corporation, vast margins and vacant spaces which have heretofore characterized Chinese publications. tt 10621 The scope of the work is so great, and its itilitarian purposes so complete, that a reference to its pages enables a person who understands English to communicate effectively THE management of the Hondkong Hotel with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all Europeans residing in China, and to the natives themselves it ex addressed plains subjects fully, with which very few indeed of them are perfectly acquainted. To parties resident in England and interested in China it cannot but be invaluable occasionally.

It comprises upwards of two thousand large
